## Travelling with style

You prefer to travel the simple, classical way?  
If so, you will love the new HENK Beluga bag –  
Perfect for a short trip or as your daily companion.

## Hand baggage

With its compact dimensions of 55 x 35 x 20 cm and a weight of only 1.300g for the Superleggera and 1.990g for the Beluga version, you can also use your Beluga bag as carry-on baggage. The characteristic form is ideally suited for the luggage lockers of smaller aircraft, too, and prevents the bag from being crushed in the baggage compartment.

## Finest materials

The main body of the HENK Beluga bag is made of soft and extremely supple nappa leather, the Superleggera is made from **velvety and extremely supple lambskin for the body**. To protect the exposed corners, robust and reinforced nappa leather is used. Hard-wearing carbon leather is the ideal material for the base, with its integrated studs fashioned from buffalo horn. The interior is a joy, with handwoven padded horsehair for the bottom and hard-wearing nylon and lamb nappa leather for the other trimmings.

### Perfection in the detail

The exceptionally sturdy and smooth-running RIRI® zippers ensure easy opening and closing. The outside pocket is conveniently accessible and offers room for your passport and tickets. The two zippered pockets at each end provide additional stowage space, e.g. for a bottle of water, a small umbrella or the charger for your laptop or smartphone.

Inside, you will find a large compartment with Velcro fastener that is big enough to hold a laptop with a length of up to 15". As an optional extra, you can also order a HENEK laptop bag in the colour and leather of your choice. Two further small pockets - also with Velcro fasteners - offer additional space for smaller items.

A roll-out/roll-up holder for soiled items is also integrated inside the bag. It allows you, for example, to keep your clothing separate from other items or protect it from direct access.
